

SHIPLINK 250 V

Cable joints for shipboard signal cable 250 V

Cable jointing concept based on flame-retardant, halogen free heat shrinkable tubings. The cable joints are designed for shipboard cables.

The joint kits contain all the necessary equipment for installation, including connectors for all conductors and earth. The installation instructions can be supplied in both Norwegian and English language.

- Easy installation
- Small diameter increase, compared to cable diameter
- Fits a range of cross-sections
- Suitable for a variety of shipboard cables

SELECTION TABLE AND CATALOG NO, SEE NEXT PAGE.

Splice kits for 0.6 - 1 kV power cables and 10-20 kV medium voltage cables are available.
