

HT-TC041N Hydraulic cutting tool

Hand operated hydraulic tool specifically designed to cut copper, aldre, aluminium, aluminium-steel cables and steel ropes, aluminium and steel rods having a max overall diameter of 45 mm.

New model, even more self contained, robust and sturdy. The blades are manufactured from high strength special steel, heat treated to ensure a long service life.

The head can rotate through 180 degrees, to enable the operator to work in the most comfortable position, and can easily be opened to allow cutting of running cables. HT-TC041N features an automatic safety valve to bypass oil when reaching maximum pressure; a pressure release device can also be operated at any stage of operation.

Art.no.	Title	Working pressure
