

TEMPORAIL kit

The Temporail system of connections and tooling provides a quick and reliable means to guarantee continuity of conductivity in rails during maintenance, repair and new installations.

Essential for maintaining return current connections, the Temporail system is also ideal for temporary signaling applications and earthing between the line and adjacent trackside structures.

The system fits most rail types with 125, 140 and 150mm feet for verification verification please contact Procab).

- Easy installation /removal using Cembre patented tool HT-TRC
- Safer working without the risks associated with alternative systems
- Connection without any drilling or welding
- No grinding or cleaning from previous operations
- High vibration resistance
- Accurate location on rail foot
- Reusability due to controlled use of force

Art. no.	Title
99 20 50	RTC1CU10-2000 2 m 120 mm ² insulated Aluminum flexible conductor cl.5 terminated both ends with Aluminium lugs and fixed with M10 Steel bolts and plain washers.
99 20 49	RTC1AI10-2000 2 m 120 sqmm insulated Copper flexible conductor cl. 5 terminated both ends with Copper lugs and fixed with M10 Steel bolts and plain washers.
